

To whom this my concern. I subscribe to xm radio because I was sick and tried of the poor reception of broadcast radio stations. Interstate I-80-90 in Ohio & Indiana has towers next to the Interstate which drowns out radio stations all across that region. Being a over the road truck driver I need up to date traffic & weather. If you have ny doubt. Take a drive though Gray Ind. Chicago Ill on Good old I-80& I-94. The land Of orange barrels in summer. Don't forget the Fabulous winters.

Thank you Larry Kiernan Roadway Express

P.s. Chicago Am Radio is almost impossible East of Chicago Ill.
